Application for exemption from compulsory health insurance (Section 8 Para. 1 No. 5 Social Security Code V (SGB V))

Dear Sir or Madam,

I am applying for an exemption from compulsory health insurance during my current studies starting from _____.

Start of studies: Summer semester/winter semester (please delete as appropriate)
Name and address of university: _____

I enclose proof of my insurance cover provided elsewhere (for example a confirmation of private insurance). I am aware that the exemption cannot be revoked and is valid for the entire duration of my studies.

Personal details *if known **optional information

Name at Birth: _____ Place and Country of birth: _____

Date of birth: _____ Pension insurance number*: _____

Telephone/mobile **: _____ E-mail **: _____

Subject studied **: _____ Expected duration of studies **: _____

Good to know: The data will be processed for the purpose of clarifying the insurance relationship in accordance with Sections 5 ff. Social Security Code V (SGB V). BARMER stores this data for 30 years and then deletes it. Provided that the legal requirements are met, the right exists to information, correction and deletion or restriction as well as the right to data portability.

Consent for advertising purposes (Art. 6 (1) a GDPR)

- I consent to BARMER storing and using my personal details provided in order to inform and advise me, also with the assistance of a service provider, about the benefits, in particular the service and portfolio, of BARMER and the range of private supplementary insurance policies offered by BARMER's partner HUK COBURG Krankenversicherung, and to conduct opinion research (e.g. surveys to measure quality and customer loyalty). Contact may be made by e-mail, telephone, text message or post.

Consent is voluntary and does not affect your application for exemption from compulsory health insurance. Your consent remains valid until you withdraw it with future effect from BARMER, Lichtscheider Str. 89, 42285 Wuppertal, or by e-mailing service@barmer.de. Your data will then be deleted immediately.
